

Shouldn't your core administration system provide true efficiency and automation?

FINEOS AdminSuite is designed specifically for the Life, Accident and Health industry. As a comprehensive core insurance administration suite it includes absence, billing, claims, payments, policy, and provider modules.

FINEOS Policy is the complete policy administration solution for an insurer's single source of truth, managing the full lifecycle and all transactions and interactions at both group and member level.

FINEOS Billing is the complete insurance premium billing and reconciliation management solution that supports all product types and billing models in one group billing system.

FINEOS Policy and FINEOS Billing deliver differentiated benefits that matter: claims acceleration, billing automation and simplified onboarding

Drive greater efficiency, increase client satisfaction rates and drive profitability across the organization with the robust and differentiated FINEOS AdminSuite.

FINEOS POLICY AND FINEOS BILLING
